## Why do we need an Ethical Code?

We need some ethical code or delicadeza because we know there are others looking at us. The cornerstone of the Eagles Delicadeza and Moral Code of Ethics is the Eagle's conscience.

"Conscience is nothing but other people inside you". (Luigi Pirandillo, Each in his own way)

"There is only one way to achieve happiness in this terrestrial hall, and that is to have either a clear conscience or non at all" (Olden Nash, I'm a Stranger here Myself)

"Conscience is, in most men, an anticipation of the opinion of others" (Sir Henry Taylor, The Statesman)

"Ethics is the maintaining of life at the highest point of life at the highest point of development-my own life, and other life-by devoting myself to it in help and love, and both these things are connected. And this ethics, profound, universal, has the significance of a religion, it is religion."(Alexander Schweiter)

"Conduct is three-fourths of our life and its largest concern" (Matthew Arnold: Literature and Drama)

## **Eagles Desideratum**

" The Philippine Eagles shall seek and construct their humanitarian service, usefulness and destiny in the Philippines geared to benefit primarily their needy people and community. They are strongly committed to render personal service for the betterment of the Philippine community and its people. They shall sacrifice and do battle to achieve their goals. They shall give no excuses, as they have hereby set the innovative tone of change which shall present a matter-of-fact humanitarian service to the needy sectors of the Philippine society intensely determined in the light of local environment and necessity. They shall give dignity to this battle and crusade by doing and practicing what they hereby strongly set and desire"
